

Did you know Contractors are still eligible for takeCHARGE Rebates?!?

If the contractor is the current owner of the electricity account they are eligible for the following rebates. These takeCHARGE rebates are applied to the homeowner’s electricity account.

	NEW HOMES	RETROFIT HOMES
Electrically Heated Homes (Includes heat pumps)	Programmable Thermostats, \$10* each Electronic Thermostats, \$5* each	Programmable Thermostats, \$10* each Electronic Thermostats, \$5* each Basement insulation up to \$1,000* Attic insulation up to \$1,000*
All Types of Heating Sources	HRV’s \$175*	HRV’s \$175*

*Must meet eligibility requirements. Visit TakeChargeNL.ca for full details!

Calling All HRV Installers – Don’t Forget About the takeCHARGE Installer Incentive!

For every takeCHARGE approved HRV you install you get \$25. Plus the customer will receive a \$175 rebate. Now that’s a win win!

The HRV model must be listed on the takeCHARGE website and be installed by a certified HRAI installer to qualify. Visit TakeChargeNL.ca for qualifying details. All other enquiries, please contact Corinne Roberts at croberts@newfoundlandpower.com.

We also offer financing for all rebated items and other electrical upgrades.

Happy holidays from takeCHARGE!
